Visit Will Cost the Windy City Just \$35 Per Minute.

Royal Visitor Will Arrive at Union Station at 6:30 O'clock Tonight.

VISIT TO MILWAUKEE

Chicago, March 3.—Prince Henry of Prussia will arrive in Chicago at 6:30 o'clock this evening and will straightway enter upon a six or eight hours round of entertainments as strenuous as western hospitality can make it.

All day today and all through last night men with hammers and nails, with thousands of yards of many-colored bunting and with hundreds of American and German flags, were at work decorating the halls in which the prince will be entertained, while additional decorations were put in place on many of the buildings along the streets through which the prince will pass.

Banquet Leads Functions
At the hotel he will be taken first of all to the banquet which the members of the committees of entertainment will give him. There seats will be provided for 174 persons, and they will be arranged in a very unusual manner, so that every one of his Chicago hosts save those who sit at his right and left, will face directly toward the royal guest.

The Grand Ball
After the banquet he is to be driven rapidly to the first regiment armory, where the German singing societies, 1,300 singers strong will sing German and American national songs, and where, after Thoe J. Lafens shall have made an address of welcome, the prince is expected to make a short response. Six thousand German-American citizens will be present at the concert.

Then comes the grand ball at the Auditorium, the crowning event of the day. Such handsome decorations have ever been seen at any grand ball before as there will be after the decorators finish their work.
From the royal box the prince will view the scene and perhaps he will participate in the dancing. At midnight he will lead the way to the main dining room of the Auditorium where a buffet supper will be served and after a brief visit to the ballroom his day's entertainment will be over.

Tuesday's Plans Limited
For Tuesday morning nothing yet has been definitely decided as to the prince's doings until at 11:30 o'clock he starts for the Lincoln monument in Lincoln park to place there his wreath of honor. The luncheon and reception at the Germania club will be carried out exactly as planned, and after that the Chicago programme includes only the drive to the railway station.

Costs \$35 a Minute
A curious member of the general committee got to figuring yesterday what all this entertainment for the prince would cost the people of Chicago. So much secrecy has been observed by the executive committee that accurate figures could not be obtained, but when all the direct and indirect expenditures are taken together he estimated that the prince's twenty-four hour stay would cost at the rate of about \$2,000 an hour or the rate of something like \$35 a minute.

VISITED EXPOSITION SITE

Drive About the City Included in Prince Henry's Visit to St. Louis.
St. Louis, March 3.—Prince Henry, who arrived in St. Louis this morning at 7 o'clock was given an opportunity to view the exposition of 1903, to which press dispatches say he may be sent as the representative of the German government.

St. Louis is gaily decked in the colors of America and Germany in honor of the visitor. A large portrait of Prince Henry has been hung over the main entrance to the city hall. Excellent portraits of the prince garlanded in green are visible everywhere about the city today, surrounded with German and American shields and pennants.

Prince Henry stayed in St. Louis four hours. The public reception in the great grand hall of the union station was followed by a drive through the principal downtown thoroughfares, which a mighty force of street cleaners have been working on for three weeks, and thence to the St. Louis club, where breakfast was served and Mayor Wells presented a souvenir basket of gold and silver. One hundred and forty distinguished men took breakfast with the prince.

From the club the prince drove to Forsythe station, where 11 o'clock he took his train for Chicago.

MILWAUKEE READY FOR HIM

The City Promises to Turn Out En Masse to Greet Prince Henry.
Milwaukee, March 3.—The arrangements for the reception for Prince Henry tomorrow have been completed and there will be no change unless inclement weather should prevail, and this is not expected, as Dr. Wilson of the weather bureau has promised clear though possibly cool weather.

Mayor Rose has proclaimed a half holiday in the city departments in

honor of the royal guest, and asked the merchants and manufacturers of the city to close their places of business during the time the prince is here.

The prince will be met at the station by a reception committee and escorted by a body of German veterans to the exposition building where public welcoming exercises will be held. The guest will then be taken for a drive along the lake and bay shore under the escort of Troop A, commanded by General Otto H. Falk.

At the Pfister Hotel banquet the prince will offer the toast "The President of the United States." Mayor Rose will then offer the toasts, "The Emperor of Germany" and "Prince Henry of Prussia." To the latter the prince is expected to make a short response. He will then be presented with a handsomely bound volume of views of Milwaukee as a souvenir of his visit.

The prince and his party will be escorted at 9:30 o'clock to the Union depot, where they will board their train.

Reception at Toledo
Toledo, O., March 3.—Representatives of local German societies met today to complete arrangements for the reception of Prince Henry, who is to spend ten minutes in this city on Wednesday morning. One member stated that Mayor Samuel M. Jones had refused to sign an embossed address of welcome which was sent to the prince on behalf of Toledo German-Americans, giving as his reason that he did not believe in kings and princes.

ON LOOKOUT MOUNTAIN

Prince Henry Cheered While Passing Through the South

Indianapolis, Ind., March 3.—Prince Henry of Prussia went up Lookout Mountain yesterday, and after viewing the ground where the union and confederate armies met in conflict and hearing a brief story of the battles, resumed his journey to the North and West. Leaving Chattanooga, his train ran through a corner of Alabama and then, turning to the north, hurried across Tennessee, with a short stop at Nashville, through Kentucky, with brief stays at Louisville and Bowling Green, and up into Indiana to another brief halt at Indianapolis.

At Indianapolis the course was changed to the westward again for St. Louis. His reception at the South was hospitable and demonstrative. The negroes manifested great curiosity as to the prince, and they interested and amused him.

In Nashville ten thousand or more men, women and children crowded the Union Station and railroad yards for a sight of the royal visitor. During the stop the desire expressed by the prince to hear some of the old plantation negro songs to the South was gratified, the negro jubilee singers from First University singing three of those tuneful melodies, to the manifest enjoyment of the prince.

There was a great crowd at Chattanooga and the people presented the prince with a handsome souvenir of his visit. Nashville also made a demonstration of friendliness, as did Louisville and Indianapolis.

Judge Shums, a venerable citizen, mounted the rear platform of the Columbia and in the name of Kentucky presented the prince with some fine old peach brandy and some whisky.

VERY FAST TIME AT MILWAUKEE

Stagg Says the Victory of the Chicago Maroons Was a Surprise—Work of Beloit.

Chicago, March 3.—The excellent showing made by the A. A. U. at Milwaukee on Saturday has led Director Stagg to believe his men have a good chance of winning the conference meet in the spring.
The Chicago team returned yesterday morning, after winning the meet with a margin of 22 points over Beloit, the next highest competitor. In eleven events the maroons won seven firsts, two seconds, and three thirds. Two banners, one for the meet and the second for the relay race, together with twelve medals, constitute the spoils that the pupils of Professor Stagg brought from Milwaukee.

Director Stagg declares the meet one of the most remarkable for fast time that was ever held in the west. In the quarter mile run Merrill of Beloit equalled the world's indoor record of :52.35, held by Pat O'Dea. Fred Moloney, in their relay race, clipped one-fifth of a second from that record, going the distance in :52.25. In the high hurdles Fred Moloney beat the world's record, and equaled the world's record in the low hurdles. Clyde Blair, the star freshman sprinter, equalled the world's record for the seventy-five yard dash. Jerome Magee beat the world's indoor record for the pole vault.

Tourist Sleeping Cars
The Milwaukee road has announced that instead of making a reduction in the price of sleeping car berths, as had been contemplated, it will in the near future put tourist sleeping cars on the run between here and St. Paul twice a week. Old sleeping cars will be utilized for the purpose. The last Pullman sleeping car in operation on the Milwaukee road system will be retired March 15, when the last contract in force between the road and the Pullman company will expire. The road will then operate its own sleeping cars exclusively.

D. K. Jeffers departed this morning on a business trip to Chicago.

DAMAGE OVER FIVE MILLION

At Least a Score Have Perished in the Eastern Freshets.

WATER GOES DOWN

Hundreds of Families at Paterson Taken from Their Homes in Boats.

ALL DANGER IS OVER

New York, March 3.—Reports received this morning from the flooded districts of New England and the middle states indicate that the freshets are slowly receding. Reports of loss of life are incomplete, but it is believed at least a score have perished. Probably fifty thousand are temporarily deprived of employment. The financial loss will not fall short of five million dollars.

Six Persons Drowned
Passaic, N. J., March 3.—The swift current in Saddle River, which separates this city from the village of Dundee, carried away the bridge early this morning and six persons on the structure are believed to have been drowned.

Waters Are Receding
Paterson, N. J., March 3.—The floods in the Passaic are rapidly receding this morning, but it will be days before the normal conditions are restored. The water is still abnormally high. The danger, however, is believed to be past and already some of the sufferers are clearing away the wreck left by the storm. No further loss of life is reported, leaving the death list as a result of the storm fixed at three.

Seranton, Pa., March 3.—The waters of the Lackawanna receded many feet during the night and all danger of further damage from overflow is past.

Pittsburg, March 3.—The weather is very cold here this morning, the flood in the rivers continues to recede. It will be several days before the normal conditions can be restored. It is estimated that the damage to the manufacturers on account of the flood will be over a million and a quarter dollars.

Storm Is Widespread
Chicago, March 3.—Reports from the storm-stricken East and South today show little relief from the distressing conditions. Rivers and smaller streams are out of bounds, destroying bridges, tearing away roadways, inundating houses in the lowlands, flooding great manufacturing centers and throwing thousands of people into idleness.

One peculiar feature of the storm in its invasion of Paterson, N. J., which three weeks ago was devastated by fire. Yesterday the Passaic river burst its banks and overflowed the city, driving hundreds of people from their homes. The floods are causing more suffering than did the fire, for the more directly affect the poor residents, who are made homeless and will lose their small belongings.

Conditions in Pennsylvania and Ohio are improving. That railroads have suffered severely and are still in a bad way is shown by New York dispatches.

In Paterson, one death is reported from the flood. James O'Malley, a miner, and Joseph Gallachar, a hox, were drowned at Seranton, Pa. In the vicinity of Wilkesbarre nine lives have been lost.

GRAVE REBELLION RAGING IN CHINA

Foreign Office Admits That 10,000 Soldiers Are Pillaging—Edict Orders Missionaries Guarded.

Pekin, March 3.—The Chinese Foreign office now admits that the rebellion in the vicinity of Nan Ning, province of Quang See, seventy miles north of the Gulf of Tonquin, is grave, though this was denied yesterday. Over 1,000 soldiers are engaged in pillaging.

An edict has been issued commanding the Chinese authorities to afford protection to the missionaries and other foreigners.

Mr. Conger, the United States minister, has notified Prince Ching, head of the Foreign office, that he expects China will suppress the rebellion speedily in that part of the country.

NEW FORM OF GRIP INFESTS THE CITY

It Differs from the Old Kind in That It Attacks the Lungs and Bowels.

The doctors of the city are kept exceedingly busy nowadays with a new form of the grip which has struck the city within the last two weeks. Physicians say that it differs from the old form of grip as it attacks the lungs and bowels and either develops into pneumonia or bowel trouble.

The symptoms of the disease are the same as in the other form of grip but once started it acts differently. At present there are a great many cases in town and the physicians are now anxiously watching its development. The disease in its present form is very much more to be feared than the small pox and is very much more liable to end seriously for the patient.

FOR FREE TEXT BOOKS SYSTEM

Vigorous Movement for This Reform is On in Wisconsin.

BOOK MEN OPPOSED

Candidates for the Legislature Are Being Pledged to This Proposition.

TEACHERS WILL AID

A strong movement is on foot in many Wisconsin counties for the adoption by the next legislature of measures looking to the introduction of a free text book system into the graded schools of Wisconsin, and it is said that the legislative nominees from several of the districts will be asked to pledge themselves on the question at public meetings prior to the caucuses.

This free text book question first appeared at the session of the legislature a year ago when several bills on the subject were introduced into the legislature. Book men at once became very active in the lobby against the measures, and although several of the bills were well threshed over in committees all the measures on the subject were finally killed.

State to Publish Books
Among the plans which was proposed in the last legislature on the subject of free text books was for the state to publish the books and sell them to the counties at cost for distribution among the pupils.

This was of course a proposition which met with the hearty opposition of the book companies and they promptly had several of their agents in Madison to work against the bills. Next winter, however, the measures for free text books may have some strong champions, as it is understood that an effort is being made to interest Senator Stout, who has always taken great interest in educational legislation, in the bills and if he would come out in favor of free text books he would prove a very hard man for the text book company's employees to meet.

Any bill on the subject which Senator Stout should propose would receive a great deal of attention in both houses of the legislature, and in view of the strong feeling which exists in many parts of the state for free text books if the book companies do defeat the legislation next year it is likely that so much attention will be called to the matter as to make it a state issue.

Provide for Commission
With a view to getting as good text books as possible for the schools under the uniform system, it is likely that the bills on the subject of free text books for the graded schools will provide for the appointment of an educational commission which shall make the selection of the books which are to be printed by the state. An initial step toward the free text book legislation will be taken at the convention of the Wisconsin State Teachers' association, which will be held in December prior to the meeting of the legislature.

At this convention resolutions will undoubtedly be presented asking that the association go on record for free text books for the graded schools of the state.

The fire spread to four buildings on either side and they were almost completely destroyed. Most of the injured were hurt by jumping from the windows. The fatally injured: Concitt Durando, jumped from sixth story; Daniel Shellard, jumped from fifth story; Jos. Collette; Richard Farrington. Jos. Ruel is believed to be in the ruins. The property loss is two hundred thousand dollars.

TRANSFER OF THE STARK HOMESTEAD

The Farm is Located in the Town of La Prairie, and the Price Paid Was \$18,515.

Deeds were recorded Saturday afternoon with Register of Deeds O. D. Rowe that transferred the Stark homestead at Shopiere to Nellie H. Spicer. The farm is located in the town of LaPrairie and Turtle and consists of 264 1-2 acres. It is adjacent to the station at Shopiere handy for shipping purposes and is one of the finest farms in Rock county.
The price paid for the property was \$18,515 or about \$70 an acre, which is not a large price considering the number of fine buildings on the place. As a part consideration for the Stark property Mrs. Spicer transferred to D. Q. Stark the N 1-2 of S. W. 1-4 of Section 25; the N. 1-2 of N. W. 1-4 of S. E. 1-4 Section 25; and E. 1-2, N. W. 1-4 of S. E. 1-4 of Section 26 or 110 acres for \$7,200 or about \$65.50 per acre.
Mrs. Spicer will be remembered as Miss Nellie J. Holmes.

CENTRAL ARABIA IN OPEN REVOLT

Powerful Leader Rallies Insurgent Tribes—Abdul Aziz Plots Overthrow of Ameer of Nejd.

Carlo, Egypt, March 3.—Central Arabia is at present a hotbed of revolt and intertribal wars. Or the rebels Abdul Aziz Ben Teyzul, a lineal descendant of the once powerful Wahabi ameer, is showing the greatest strength.

Abdul's army now numbers 4,000 and wherever he goes he terrorizes the country and gains one victory after another. His latest success was the capture of the city of El Riad, in central Arabia. This stronghold he entered by stratagem in the middle of the night with only fifty followers. Abdul's men rode boldly to the palace, killed the governor of the town and thirty of his retainers.

The garrison of El Riad surrendered and the Abdul's army occupied the city.

The British authorities at Aden have received appeals from the governors of the various towns in peril asking for protection against Abdul and his hordes. It is believed that arrangements are now being made to check their progress.

The Wahabi dynasty has long looked for a chance to regain its supremacy. Abdul is taking advantage of

STATE ANGRY AT SENATOR TILLMAN

Statement That Roosevelt May Receive Bodily Harm if He Visits Charleston, Arouses Wrath.

Charleston, S. C., March 3.—No phase of the Roosevelt-Tillman sword presentation incident has created as much indignation and excitement in South Carolina as the statement attributed to Senator Tillman in New York that it would not be safe for President Roosevelt to visit the Charleston Exposition. Even the friends of Senator Tillman declare he could not have had the least reason for uttering such a slander on the state, and they are inclined to believe there has been some misunderstanding.

According to the reports received here, Tillman is said to have informed Senator Platt, whom he asked to urge the president not to make the trip, that feeling over the Booker Washington dinner at the White House is still bitter in the South, and as the result of it thorough going Southerners might be tempted to do him personal harm.

VACCINATION IS ONLY THING TO DO

St. Paul Road Posts Notices in Janesville and All Other Stations on Their Line.

Saturday the notices of the Chicago, Milwaukee & St. Paul railroad officials regarding the co-operation of employees for the prevention of smallpox was posted here and in all cities on the line. It is in part as follows:

1. That true vaccination—repeated until it no longer "takes"—always prevents smallpox. Nothing else does.
2. That true vaccination—that is vaccination properly done on a clean arm with pure lymph and kept perfectly clean and unbroken afterwards—never did and never will make a serious sore.
3. That such a vaccination leaves a characteristic scar, unlike that from any other cause, which is recognizable during life and is the only conclusive evidence of a successful vaccination.
4. That no untoward results ever follow such vaccination; on the other hand, thousands of lives are annually sacrificed through its neglect—a neglect begotten of want of knowledge.

Militia Awaiting Orders

Norfolk, Va., March 3.—The street car strike situation here is becoming serious, eight companies of militia are in the armory awaiting orders.

First came the jeweled cross, carried by a white-clad eunuch; then the religious orders of the monks, functionaries, archbishops, bishops and prelates. Finally the cardinals and His Holiness entered, clad in gorgeous robes of white, red and gold. Leo wore a triple crown and was carried aloft in a chair, flanked by waving pocket fans.

The crowd was silent until the Pope entered, and then with one voice they shouted: "Long live our Pope, the King."

His Holiness took no part in the service which was conducted by the cardinals. After the service the pontiff gave his blessing with great emotion and some weakness.
Celebration Without Parallel
Popes reckon their pontificates from the date of their coronation, although as a matter of fact, the supreme head of the Catholic church from the day of their election, and that is why today which is the anniversary of Leo XIII's coronation, rather than Feb. 20, which was the anniversary of his election, will be celebrated in all Roman Catholic churches throughout the civilized world with befitting pomp and ceremony. It is a celebration without parallel in the annals of the Roman Catholic church.

For during this, his jubilee year, which opens today, Leo XIII. will also commemorate the fiftieth anniversary of his becoming a cardinal, and the sixtieth anniversary of his consecration as an archbishop. In all the long list of popes who have succeeded one another without interruption in the chair of St. Peter since the last 1,800 years or more there has been but one other pontiff—namely Pius IX—who has lived to celebrate the silver jubilee of his coronation as "Bishop of Rome"—that ancient title by which the supreme rulers of the Catholic church were formerly known.

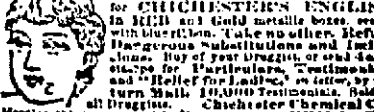

MOB WRECKS A SALOON.

Drives Out Occupants with Revolvers and Destroyed Furniture.

Nashville, Ill., March 3.—A mob wrecked Koettkamp's saloon in Irvington. As a preliminary to their work the mob fired a volley from their revolvers into the building. The occupants of the saloon were frightened by the sudden bombardment and beat a retreat, leaving the building in charge of the mob, which destroyed tables, chairs, stoves and counters and all fixtures, and piled the wreckage in a heap on the floor. The building was added with bullets, not a pane of glass being left. Although many of the bullets struck close to those in the saloon, no one was injured.

Ready for Ship Subsidy Bill.

Washington, March 3.—By passing the omnibus claims bill and the bill providing for the irrigation of the arid lands of the West, the Senate took a long step in the direction of carrying out the program of legislation informally agreed upon at the opening of the session in December. In spite of the fact that there is no previous question rule in the Senate and no method of cutting off debate when Senators want to talk, the Senate can do a great amount of work at times, and this session is breaking the record for celerity of action. The Senators have a much more informal way of doing business than their colleagues in the House, but they manage to accomplish a good deal after they have had time to arrange matters among themselves.

In passing the claims bill and the irrigation measure the truck was cleared for the ship subsidy bill, and that long discussed measure now has the right of way in the Senate until disposed of. That it will pass the Senate there is no longer any doubt, and its friends hope that it will be brought to a vote substantially as it now stands. This is too much to expect, however, and the measure will be greatly changed by amendments to be proposed during its progress towards a vote. It is estimated by those who have been consulted in the drafting of the bill that during the first year of its operation it will take about \$2,000,000 out of the treasury, and that after it has been in force a year or so and ship owners have had op-

portunity to take advantage of its provisions fully, the annual expenditures called for will be \$3,000,000 or \$4,000,000.

Census Clerks Disappointed.
Washington, March 3.—There is great disappointment among the clerks of the census office over the action of the conference on the census bill, which will not make it possible to place the civil service blanket over the 1,700 employees. As the bill passed the two houses it provided that all clerks in the census office should be placed under the civil service law. As it was agreed upon in conference it provides that when the census office is put upon a permanent basis the director, with the consent of the Secretary of the Interior, may appoint the clerks now employed, and when so appointed they are placed under the civil service law. The effect will be to place from 500 to 800 of the clerks under the civil service, instead of 1,700.

COMPLIMENTARY.

At the press banquet given in New York to Prince Henry, the real object of his visit was discussed, and in comparing the public journals of the United States, with the officers of a great army, he accorded to American journalism, a very fine compliment. The banquet was given by the Staats Zeitung, at the Waldorf Astoria, and 1200 newspaper men were present. It was a representative audience, composed of the brightest minds connected with newspaper work, from all parts of the country.

When the distinguished guest said to this intelligent body of men, that he was sent out to promote and encourage friendly relations between the two great nations, he realized that he was speaking to an audience that possessed the ability as well as the opportunity, to aid and encourage his friendly mission. It was a stroke of policy as well, for the press of the old world, appreciate the compliment of recognition, and the fraternal feeling prompts ready response. The wishes expressed by the prince, are echoed across the sea, and endorsed all the more heartily, because of the avenue selected.

The popular verdict of American travelers is, that Germany stands at the head of the list of all foreign countries, for cordiality, and warm hearted sociability. A pleasant good morning greets the stranger from across the table and a bond of good fellowship is soon established. Prince Henry possesses the same national characteristics, and on his first visit to the land, where every man may be an aristocrat if he will, he finds a hearty welcome.

The press of the country appreciate the honor conferred, and will cheerfully exploit and encourage the mission. The impulsive American, whose energy and ambition, begrudge the time necessary for eating and sleeping, and the conservative steady going German, who knows how to get the most out of life, always form a good combination in business. The balance wheel is just as necessary as the piston. If the two nations can touch elbows and work together more harmoniously, benefits will be mutual and the visit of the Prince will amount to more than a gala day.

THE SENATE EPISODE.

All sorts of opinions are expressed concerning the late disgraceful row in the senate chamber, and the President is criticized as well as commended, for the course pursued, in withdrawing his invitation for Senator Tillman to dine at the White House. The action of the Senator's nephew is generally regarded as an insult, and some of the President's advisers, suggest that he abandon his trip to Charleston on that account. It is safe to assume that he will do nothing of the kind.

The state of South Carolina is larger than the Tillman family, and the press of the state, which in this case at least reflects public sentiment, is vigorous in denouncing the conduct of the senators. The question of state rights, which was the most delicate question involved, has been settled, and the senators, under reprimand are restored. The President will not be influenced, and the state of South Carolina, will receive the same gracious treatment that it would, had the affair never happened.

It is always easy to criticize the acts of officials. There are a world of people in private life, who could manage affairs of state and government, better than they are managed. The army is equally large, who would like to try a hand at the reins of the universe.

In the Tillman-Mc Laurin case, the President as well as the senate, was confronted with conditions that were startling and unusual. Prompt action was demanded. The life and reputation of government was involved. History was being recorded by the film, and if any mistakes were made, they were errors of judgment. In the light of future events, it will be found that public opinion will endorse both the action of the President and senate.

THE LIBRARY BUILDING.

The library board has practically decided on plans for a building, and will be ready to commence work, as soon as the late P. S. Eldred estate is settled. The bequest of \$10,000 is not yet available, and the board do not feel warranted in perfecting plans until it is.

A two story building will doubtless be erected, with ample accommodations for the future growth of the city. The present library contains about 15,000 volumes. The new building will have available room for five times that number.

The new city hall is nearing completion, and will be occupied sometime during the summer. The outlook for the government building is encouraging, and when the library is completed, the city will be well provided with public buildings. Carnegie monuments are being erected in all parts of the country, and Janesville is favored by being on the list.

The city can afford to show a spirit of liberality in promoting the library enterprise, as it has done in selecting a site. The investment is a good one and will be appreciated by generations to come.

THE PANAMA CANAL.

The Isthmian Canal, is in a fair way to be hung up. The routes are being considered, and Senator Morgan, chairman of the commission, is so strongly in favor of the Nicaraguan route, that he will attempt to block legislation if any other is favored. The latest report comes from Paris, and is to the effect that the Columbian government declines to transfer concessions to any other nation without modifications, which would make the franchise objectionable.

With an easy money market and the abundance of capital, it would not be at all surprising if the enterprise was taken up by private parties. While both parties in congress favor government ownership, there is a strong sentiment throughout the country that is skeptical. The treasury surplus looks inviting and is doubtless sufficient to carry the enterprise through, but the people feel that they have an interest in this surplus, and it is difficult for the average citizen to realize the great benefits of the new water way. Congress will not be severely criticised if it fails to act at this session.

The supreme court of Indiana, by late decision, relieves small property owners from taxation, where property is mortgaged. \$700 is the limit, and \$40,000,000 worth of property is said to be effected. The same principle applied to all mortgaged real estate, would probably reduce assessed valuations one-half. Other states besides Wisconsin, are struggling with the tax problem.

The Allis company, of Milwaukee have contracts booked for \$5,000,000 worth of engines, all to be used by electric railway lines. The state as well as the city is to be congratulated. An industry like the Allis-Chalmers company, represents enterprise as well as money and furnishes liberal employment.

Kentucky is engaged in another unpleasantness, in which half a dozen citizens have retired permanently from the field of action. "A mountain still" and a midnight raid, are features of the tragedy. Kentucky can be relied on for a sensation, at almost any time.

A message from the president on the Cuban tariff question, may be a feature in the House, unless that body take favorable action soon. The President feels that congress is not acting in good faith, and that public sentiment is not recognized.

Germany has decided to pay no more bounty on sugar. The government has been paying 25,000,000 marks annually. The beet growers are up in arms, but the government has decided that the industry can stand alone and hopes to gain reciprocal trade relations with other nations.

The Chicago stock yards and the university, are competing for the honor of entertaining Prince Henry for half an hour tomorrow. If the former wins, the German Prince will gain a wholesome respect for American pork and hog products may increase in favor in the fatherland.

Janesville sewerage, and the new system of state book keeping, are both slumbering in pigeon holes. The city council, and the state's governor, are very much alike in some things.

The people don't seem to be in it. A girl at Terre Haute, Ind., "split her side" laughing at a minstrel show, the other night. She has been under the care of a physician ever since.

The city of New York spent \$109,000 on a four days' outing with the Prince. The citizens are now taking account of stock to see where they are at.

The Cripple Creek mines, in Colorado, turned out \$2,000,000 in the month of February, and paid \$200,000 in dividends.

Jealousy caused the death of two men and a woman, at Woodstock, Ill., last Friday.

The Iowa legislature proposes to assess railroad stocks at market value.

Princes come high, but we must have them.

PRESS COMMENT.

Ashland Press: Senator Whitehead's acceptance of the republican call for his entrance into the field for governor, means two, and only two candidates for governor, La Follette and Whitehead. Mr. Whitehead is an exceptionally strong man, and if the present governor doesn't look out a little, he will find himself in the position of Wm. H. Upham, who served only one term as governor.

Hudson Star and Times: The fellows who feel the worst, because Whitehead has come out for governor against La Follette, are the very same fellows who felt the best when La Follette came out against Scofield four years ago. Blind selfishness is a funny master.

Oshkosh Northwestern: It is claimed that a Boston woman is responsible for a bill which has been introduced in the Massachusetts legislature, providing that all owners of cats in that state must procure licenses for them. Such heartless ingratitude was hardly to be expected of any female in Boston.

ses for them. Such heartless ingratitude was hardly to be expected of any female in Boston.

Gillette, the "game" warden was a business caller in the city last week. He was accompanied by about one hundred copies of the Free Press, the Milwaukee La Follette organ. We don't know whether Gillette finds it necessary to consult that organ before he says anything or if he is just taking a few subscriptions for the good of the cause.—Sparta Herald Adviser.

Has anyone heard about La Follette coming out in favor of the return of Spooner to the senate? Does anyone know of the state paid employees of the governor ceasing their attempts to find legislative candidates strong enough to be elected to substantiate everything that the governor wants? If so, the information ought to be made public.—Brandon Times.

Toma Monitor: Mr. Whitehead is a man of sterling integrity and honor and a man on whom the Republicans of the state can rely for the substitution of principles of taxation and other legislation for the benefit of the people. He is a man on whom all Republicans except those tinged with the poison of populism can unite. We predict for him a majority in the convention and in the election that will surprise the voters.

DAD'S WAY.

Just because he says: "God bless 'em. They were made to make a noise!" People say that dad's peculiar in bringing up of boys.

"They don't understand his nature. That's the trouble,"—d-d, says he. "Look on that they're quite forgotten. All about the used-to-be."

"When my boys break loose and holler I break loose and holler, too. Just to show they do no different. From the way we used to do. When they want to go swimming. I find time to go along."

Take 'em fishing and out hunting. Join 'em in a game of ball. Teach 'em how to find the market. And to know the player's call. Laugh at all their trifling mishaps. Let them laugh in turn at me. Take their 'dares'—from jumping fences. Round to shinning up a tree.

"So we're jolly home companions. Best of chums—my boys and me. Bond between us can't be broken: "Tript we've?" dad, says he. "Better lend a boy than drive him: It's by far the better plan. Then you need not fear the future. When he grows to be a man."

That Lame Back

You can hardly straighten up, the back feels so sore. There's a chance that it is kidney "trouble," and that is something which it is dangerous to neglect. The best medicine for disease of the kidneys is Dr. Pierce's Golden Medical Discovery. The use of this medicine has resulted in some remarkable cures. It increases the activity of the blood-making glands, purifies the blood, and relieves the kidneys from clogging impurities.

Dr. Pierce's Golden Medical Discovery. The use of this medicine has resulted in some remarkable cures. It increases the activity of the blood-making glands, purifies the blood, and relieves the kidneys from clogging impurities. It is a young gentleman who has been suffering badly with kidney and bladder disease to try your "Golden Medical Discovery." writes Frank Starns, M. D., of Plattsburg, N. Y. "He bought four bottles from our druggist here, and after he had used the first bottle he began to improve. Sometimes he was unable to walk ten steps, now he can ride any horse without any pain in his back and he looks as well and sound as a young boy. His age is only 25. He has suffered for nearly three years, and several other doctors called the case incurable, but I had confidence in Dr. P. Pierce's Golden Medical Discovery. I have been offered one hundred dollars several times already for my kind advice, but I would not accept it because I want everybody to know what Dr. Pierce's famous medicine can do."

"This testimony is absolutely true, and the reason I haven't mentioned the name of the man's name is because he don't want to have his name published."

Accept no substitute for "Golden Medical Discovery." The sole motive for substitution is to enable the dealer to make the little more profit paid on the sale of less meritorious preparations.

Dr. Pierce's Pleasant Pellets stimulate the action of the sluggish liver. They should always be used with "Discovery" when there is need of a laxative.

THE BOY PHENOMENON

To Demonstrate His Healing at The Myers Grand Opera House.

The Ft. Wayne Daily Sentinel says of his recent appearance there:

A young man known as the "Boy Phenomenon" appeared in the Masonic theater last evening and to all appearances accomplished some wonderful things and has created a big sensation in the upper end metropolis. Among the wonderful feats he performed are mentioned the following:

Z. Y. Bush, a resident of Fort Wayne, who was a sufferer from rheumatism for fifteen years and could only walk by the aid of crutches, took the boy's treatment and left the hall with the crutches on his shoulders amid great applause. Mrs. William Bush, also of Fort Wayne, a sufferer from the same trouble and deafness, could hear a whisper and felt no pain after undergoing the "magnetic healing."

John B. Filman, another afflicted citizen, who suffered from paralysis, was helped to the stage by two men and after being treated danced like a school boy. Maria Schwenk, who was deaf in both ears since childhood from the effects of scarlet fever, could hear a whisper when she left the stage.

The Boy Phenomenon is billed to give his public demonstrations at the Myers Grand Opera house, Tuesday and Wednesday nights where he invites those on crutches and canes, the rheumatic, paralytic, the deaf, the blind and the lame to come and as many as possible will be treated absolutely free upon the stage.

KIRKPATRICK VS. DR. JAMES MILLS

Suit for Damages for False Imprisonment Was Taken Up in the Circuit Court Today.

The case of J. O. Kirkpatrick vs. Dr. James Mills being a suit for damages brought against Mills by Kirkpatrick for false imprisonment was taken up in the circuit court this morning. This is the second trial of the case the verdict given Kirkpatrick by the jury in the former trial being set aside by Judge Dunwiddie on account of error in the judge's charge.

On August 6, 1901 the safe in the office of Dr. Mills was opened and the door to the inner cash box forced, the thief taking therefrom about \$20 in money. Kirkpatrick had been in the employ of Dr. Mills up to the night the safe was opened but left that night for South Dakota, where he was arrested on complaint of Dr. Mills and brought back here for trial.

The trial on the criminal charge resulted in an acquittal for Kirkpatrick, who brought an action in the circuit court against Mills for damages. The trial resulted in a verdict for Kirkpatrick of about \$800 but was set aside and a new trial ordered.

The case was taken up again this morning before Judge Dunwiddie, Smith and Pierce and H. L. Maxwell appearing for the plaintiff and Sutherland & Nolan and M. G. Jeffris appearing for Mills.

After some trouble the following jury were summoned to try the case: John A. Paul, J. A. Murphy, Rollin A. Radway, C. W. Schwartz, Grant Walpole, W. J. Cannon, T. D. Dowling, H. P. Tower, E. H. Pelton, B. D. Treadway, R. E. Winbarger and S. Florey.

The case was opened for the plaintiff by Charles E. Pierce, who gave a clear statement of the case to the jury. He was followed by M. G. Jeffris for the defense giving their side of the case and what they expected to prove.

The other cases taken up by the court before the Kirkpatrick-Mills case were C. H. Hoffman vs. the Janesville & Southeastern railroad in which the appointment of commissioners will be taken up March 20.

In H. W. Child against J. G. Kocher, a motion was made to dismiss the appeal for the reason that there was no valid judgment from which to appeal. It was taken under advisement by the court.

In the case of Frederick H. Lathers against M. J. Dixon was settled.

EXCELLENT FOR AMATEURS

The Golf Club Minstrels Will Draw Crowded Houses

Indications are that the Golf club minstrel entertainment, Wednesday and Thursday evenings of this week will result in two of the largest audiences that ever attended a home entertainment. The stage setting will be most elaborate and the costumes will be most extravagant. The talent secured will be the best and the musical portion of the show will be strictly up-to-date. The dancing will be a special feature in itself and will be executed by true artists. The circus part of the program will be well worth seeing. In fact, the whole entertainment promises to go with plenty of life and dash and at the popular prices that will prevail there is no reason why seats should not be at a premium on both evenings.

WILL OPPOSE AN INSURANCE RAISE

Local Leaf Tobacco Dealers May Form a Mutual Company to Resist Regular Companies.

The Janesville Leaf Tobacco Dealers' association held a meeting Saturday evening for the purpose of talking over the matter of a prospective raise in the insurance rates in this city. All of the tobacco warehouses in this city have been re-rated but the new rates have not gone into effect. The tobacco dealers of this city and the state do not think the rates should be increased, as there has been no large loss in this state on tobacco since July 4th, 1895, when there was a considerable fire at Stoughton. The tobacco men cannot understand why the tobacco interests should be made to make up the excessive losses in other lines of business.

Preliminary steps were taken last evening to form a mutual company to carry a part of the local insurance, should the old line companies enforce a general advance in rates.

The aggregate amount of the premiums on policies on the tobacco in this city is a very large amount, and the local dealers think it is all they can stand and will strenuously oppose any advance.

"SPORTING LIFE" IS AN ASTONISHER

Grand Melodramatic Presentation of a Spectacular Character at the Myers Grand Tonight.

A melodramatic astonisher this year is the successful English play "Sporting Life," which will appear at the Myers Grand tonight. The piece withstood the entire period of the last theatrical term in New York and Chicago, remaining in the latter city for a greater length of time than has ever before been accredited to a dramatic production, and scoring a success unprecedented in Windy City theatricals.

Some idea of the magnitude of the presentment of "Sporting Life" may be gained from the statement that, despite the great area of McVick's Theatre stage, where the piece has recently been presented, it was necessary to remove therefrom every stick and canvas of the house scenery to accommodate the vast investiture.

There are twelve different scenes employed, and several pictures are shown whose completeness and startling grandeur it is asserted, will open the eyes of theatre-goers in this city, who for so many years have been familiar with the astonishing possibilities of stage production and illusion.

OPTICAL PARLOR REDECORATED

Is a Model Department in Every Way

Decorators have done much in the past few days to improve the appearance of the optical department at F. C. Cook & Co's. store. The new decorations are very artistic. A wall-cotting of blue burlap to the height of about five or six feet is nicely set off by the mahogany finish in which the balance of the wall and ceiling is done. Both electricity and gas are used for artificial light. The optical room could not be better situated for efficient work. It is away from noise and the usual disturbance of a store so that the result of examination and fitting is perfect. W. F. Hayes has embodied the good points of all the optical parlors he has seen and this together with the latest apparatus and his wide knowledge as a specialist give him a noticeable prestige.

Theories About Food

Also A Few Facts on the Same Subject.

We hear much nowadays about health foods and hygienic living, about vegetarianism and many other fads along the same line.

Restaurants may be found in the large cities where no meat, pastry or coffee are served and the food cranks in his glory, and arguments and theories advanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors who lived four score years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than to formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to acorns.

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and veg-

etables, meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables and grains.

Dr. Julius Remmon on this subject says: Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia tablets because they supply the pepsin and diastase necessary to perfect digestion and every form of indigestion will be overcome by their use.

That large class of people who come under the head of nervous dyspeptics should eat plenty of meat and insure

its proper digestion by the daily use of a safe harmless digestive medicine like Stuart's Dyspepsia Tablets composed of the natural digestive principles, pepsin, diastase, fruit acids and salts which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are useless for digestion as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food and the sensible way to solve the riddle and cure the dyspepsia is to make daily use of a preparation like Stuart's Dyspepsia Tablets which is known to contain active digestive properties.

OUR
SPRING SHOES

Are rapidly filling up our shelves. We can truthfully say they are exceptional values in good footwear, and in up-to-dateness they lack nothing that could add to the beauty of the shoe. Hand sewed welts in the new extension sway soles at \$3 that can't be beat—they take. Our customers say they never seen such values. It's only one item but we've hundreds more and just as good.

FALLING FLOORS KILL FIVE.

Thirteen Injured in Cleveland by the Collapse of a Bakery.

Cleveland, O., March 3.—The fourth floor of the Cleveland Baking Company's plant on Central avenue fell beneath the weight of a large number of barrels of flour, crashing through the three under floors into the basement. There are five persons missing, four girls and a man. They are buried beneath the mass of debris in the basement, and are undoubtedly dead. Besides the missing, thirteen persons were injured, one of whom probably will die. Twelve women and three men were carried through with the falling floors. Those who were rescued were dug from the ruins by the firemen and police. A number of other girls in the building saved themselves by rushing to the windows and clinging to the sills until rescued by firemen on ladders.

Are You Particular

—ABOUT—

Your Clothes?

If so, you are the man we would like to see....

The more critical the better. We have found that it is the "hardest-to-please-men" that become our best customers. Why? Because they've evidently been around a good deal; first to one merchant tailor, then to another, but never found the ideal.

Our Suits are a Triumph in Tailoring.

They're Stylish, Handsome, Beautifully Finished. All work fully guaranteed. We are now ready to measure you.
